

## Banner

Turn top edge down 2½ inches and glue top edge to back of banner, creating a casing for the rod (figure 1).

Glue trim around edge of banner (figures 1 & 2). At the top edge of the banner, glue trim about 2½ inches from edge (along glue line for casing).

**Hint:** Fold trim over where it changes direction for crisp corners (figure 3).

## Letters

Using stencil, draw back side of letters on fabric. Cut out letters.

Center letters horizontally. With letters about 4 inches apart, center them vertically in area outlined in figure 4.
